Underwriting Memo

To Investment Committee
From Asset Hawk / collection AH-2026-1112
Re Bid posture on London multifamily (Cubitt Wharf or selected parcel)

Recommendation
Do not underwrite at 95% occupancy. Bid off 73% physical occupancy with a 150 bps vacancy reserve. Treat the asking cap as 20-25% too tight until tenancy is proven.

Valuation sketch

Ask implied value (illustrative)	48-55m GBP at ~5.25% cap on claimed NOI
Occupancy haircut	95% -> 73% approx -23% in-place income
Unsupported value	10-13m GBP
Hawk bid frame	price the 73% case, not the 95% case

Why this exists
Occupancy underpins value. If you cannot fill it with tenants, what is it worth? Asset Hawk answers that from orbit, before the seller opens a data room, so the first conversation is on our numbers - not theirs.
